

WHY ATTEND?

GREEN
BUILDING
FORUM 2025

Not just a rebrand, it's an evolution.

Green Building Forum is the evolution of Green Building Day. The program is being developed in response to attendee feedback with deeper technical insights, greater focus on practical application and enhanced networking opportunities. It's tailored to those practitioners who want to stay at the forefront of sustainable design, construction, and Green Star certification.

What your team will get out of it:

- ✓ **Achieve best practice:** Hear the latest on Green Star Buildings v1.1
- ✓ **Work smarter:** Apply proven lessons to deliver faster, better projects.
- ✓ **Grow capability:** Earn 6 Green Star CPD points and build industry connections.

5 REASONS WHY GREEN BUILDING FORUM IS UNMISSABLE!

	Evolved format based on industry feedback	Time at the forum is focused only on what's most valuable to you and your projects. No filler, just relevant actionable insights
	Be first to learn about Green Star Buildings v1.1	Get the latest updates and requirements so your team is ready to align with the latest version.
	Technical deep-dives into Green Star certified projects	Learn from real projects across building types with practical outcomes you can implement in your own work, boosting project quality and efficiency.
	Interactive discussions and structured networking built into the agenda	Learn by interacting with your peers and leave with valuable connections and ideas you can put into practice.
	Gain 6 Green Star CPD points	Be ready for what's coming, whether it's a client request, a policy change, or a new certification pathway. Position yourself to anticipate change and adapt faster.
